Marker	Meaning
dot before a column	Primary key
PK	Primary key (composite pivots carry more than one)
FK	Foreign key, verified against KEY_COLUMN_USAGE, not MySQL's MUL alone
unique	UNIQUE constraint
nullable	Column allows NULL
Cardinality	**Meaning**
1 required to N optional	Standard 1:N, FK not nullable
1 optional to N optional	1:N, FK nullable
1 to 0-or-1	1:1, FK unique and nullable
N to N	Many to many, drawn as two 1:N legs into the pivot table between them
